Date: October 18, 1974

Item No.: WH #1

DIRECTOR: WHITE HOUSE SITUATION ROOM

25X1

SUBJECT: THE MILITARY SITUATION IN CAMBODIA

Military activity throughout the country remains at a generally low level, although Khmer Communist units continued harassment of government forces with numerous shellings and light ground probes directed largely at the provincial capitals of Kompong Cham, Svey Rieng, and Kompong Chhnang. Ongoing government operations to clear the rocket belt around the capital are still meeting resistance and the Communists have been able to fire a few rockets at the city during the week.
